## Hey there!

My name is Alida, I've been working as a freelance illustrator and concept artist since 2021.

I'm from a small town in Italy, but I like to move around a lot and my work is heavily inspired by the different places I've been and mostly the people I met in the meanwhile.

If you're interested in knowing something more about me and my work, you can check my portfolio here:

We can also keep in touch on my socials, I'd be glad to work with you!
